

**FRIGITD (Grant Inception to Date)** is a useful form for grant administrators. This form displays activity for grants or capital outlay projects from the inception date (rather than just fiscal year). It's a flexible form with many options. To use this form, you can enter either the Grant ID or the Index code (in which case the Grant ID will self populate). You can also specify a grant year or leave blank for all years. If the grant has more than one fund, you can also check Fund Summary to display a summary of each fund. You may also specify a date range to display or leave blank and the date range will self populate based on the origination of the grant. After filling in the key block area, click on the Next Block Icon.
